

KROSS STOOL KROSS PLUS STOOL

kastel[®]
Comfort and design

Sgabello con monoscocca in polipropilene stampata a iniezione. Versioni imbottite con controscocca in polipropilene e imbottitura in poliuretano espanso, oppure con scocca interamente rivestita con struttura in polipropilene imbottito in poliuretano ignifugo schiumato a freddo. Telaio fisso in acciaio, oppure versioni girevoli in acciaio con piedini o con base su piantana tonda con pistone gas, o con base a 5-razze in polipropilene o alluminio con pistone gas e piedini.

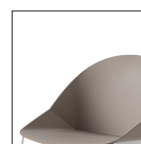

Stool with injection molded polypropylene monocoque. Upholstered versions with polypropylene countershell and expanded polyurethane padding, or shell completely upholstered with structure in polypropylene with fireproof cold-foamed polyurethane padding. Fixed steel frame or swivel steel versions on feet or with round base and gaslift. Polypropylene or aluminium 5-star base with gaslift on feet.

Tabouret avec mono-coque en polypropylène moulé par injection. Versions rembourrées avec contre-coque en polypropylène et rembourrage en mousse de polyuréthane moulé à froid. Piétement fixe en acier, ou versions pivotantes en acier avec base ronde avec piston à gaz, ou avec piétement à 5 branches en polypropylène ou aluminium avec piston à gaz et patins.

Hocker mit Monoschale aus spritzgegessenem Polypropylen. Gepolsterte Versionen mit Schale aus Polypropylen und Polsterung aus Polyurethanschaum oder mit Schale durchgehend gepolstert mit Polsterschaum aus kaltgeschäumtem feuerfestem Polyurethan. Feste Gestelle aus Stahl oder drehbare Stahlgestelle mit rundem Bodenteller mit Gasfeder oder mit 5-Speichen-Fußkreuz aus Polypropylen oder Aluminium mit Gasfeder und auf Gleitern.

Taburete con monocarcasa de polipropileno moldeado por inyección. Versiones acolchadas con contracarcasa de polipropileno y acolchado de poliuretano expandido, o con carcasa totalmente revestida con estructura de polipropileno acolchada con poliuretano ignífugo espumado en frío. Estructura fija de acero, o versiones giratorias de acero con pies o con base sobre soporte redondo con pistón de gas, o con base de 5 radios de polipropileno o aluminio con pistón de gas y pies.
